What Students Say about Campus Health

We know you're wondering - what are students saying about our services? We wondered the same thing - so we asked. If you have something to say about your experience with any of the services at Campus Health, please visit our virtual [suggestion box](#) [1] for a variety of ways to provide feedback.

Some students agreed to be filmed describing their experiences here. You can view all of our student testimonial and staff profile videos, including transcripts, on our [Health Heels YouTube Channel](#) [2].
